

RZ Codex 310 Care Cleaner

Preparation cleaner for tile and natural stone, particularly for quality stoneware

Range of application:

Water-based, wipe-off care for regular maintenance-cleaning of tiles (particularly quality stoneware) and natural stone coatings. Also suited for the construction-final/basic cleaning of acid-sensitive surfaces.

Suitable for:

- ▶ Natural stone
- ▶ Artificial stone
- ▶ (Ceramic) tiles
- ▶ Quality stoneware
- ▶ Acid-sensitive stones

Product advantages/properties:

- ▶ Exceptionally suitable for quality stoneware
- ▶ Especially mild
- ▶ Cleans stripe-free and streak-free
- ▶ Dirt-repellent

Technical data :

| | |
|------------------|--------------|
| Container type | Bottle (PE) |
| Delivery size | 1000 ml |
| Shelf life | unlimited |
| Colour | transparent |
| Processing temp. | 18 - 30 C° |
| Passable | After drying |
| pH-value | 8,6 |
| Giscode | GU 50 |

Preparation:

Sweep floor covering thoroughly before the employment of the Codex RZ 310 Care Cleaner and remove loose dirt. Remove coarse dirt thoroughly first. Apply to sample surface before large-area employment

Processing | Maintenance Cleaning:

1. Shake container lightly before use
2. Dilute Codex RZ 310 Care Cleaner 1:100 with water.
3. Surface must be only fog-moist (do not wet)
4. Wipe floor moist, allow residual moisture to dry, do not wipe off.
5. According to degree of soiling, where appropriate, repeat.

Consumption: approx. 2 ml / sqm
Range: approx. 500 sqm

Important references:

- ▶ Stable in original container with storage under uniform conditions for an unlimited period.
- ▶ It is important to protect against frost or strongly fluctuating temperatures. Tightly close off containers already opened.
- ▶ Optimal processing at low to medium air humidity (approx. 65%) and normal room temperatures (18 - 30 degrees centigrade).
- ▶ An over-concentration of Codex RZ 310 Care Cleaner leads to increased surface smoothness and visible tracks.
- ▶ Regular maintenance improves the optics and prolongs the service life.

Work and environment protection:

Non-flammable, no irritant effects and not environmentally dangerous. It is possible that the contained and designated components of the perfumes, as well as the preservatives, can cause sensitizing or allergies with certain groups of persons. During processing, the utilization of skin protection cream, as well as the ventilation of the working areas, is basically recommended

Waste disposal :

Do not allow to enter undiluted into the sewage system, into water bodies or into the soil. Rinse out residue-emptied containers with a little water and dispose of as recycling-capable containers, in accordance with the local / official directives (DSD).

The specifications are based on our experience and careful investigations. The quality of your work depends on professional construction site evaluation and product use by yourself. If in doubt, conduct a small sample test or obtain technical advice. The directions for use on the containers are to be strictly adhered to.

With the issue of this product datasheet, all preceding product data sheets lose their validity.
