

RZ Codex 330 Sanitary Cleaner

Mild cleaner for regular maintenance-cleaning in the sanitary area

Range of application:

For regular maintenance-cleaning of tiles, chromed fittings, glass, plastic and stainless steel in the bathroom and sanitary area. Removes all sanitary soiling and contamination.

Suitable for:

- ▶ Tiles
- ▶ Stoneware
- ▶ Acid-non-sensitive natural stone
- ▶ Sanitary built-in parts, for example washbasin...
- ▶ Chrome fittings

Product advantages/properties:

- ▶ Mild and powerful
- ▶ Effortlessly removes lime, grease, urine solids
- ▶ For acid-resistant surfaces
- ▶ Retains fragrance for long period

Technical data :

Container type	Bottle (PE)
Delivery size	1000 ml
Shelf life	unlimited
Colour	transparent
Processing temp.	18 - 30 C°
Passable	After drying
pH-value	2
Giscode	GS 20

Preparation:

Sweep floor covering thoroughly before the employment of the Codex RZ 330 Care Cleaner and remove loose dirt. Apply on sample surface before large-area employment.

Processing | Maintenance Cleaning:

1. Place 20 - 50 ml Codex RZ 330 Sanitary Cleaner into a bucket of water
2. Wipe surface and rinse off
3. Clean working equipment.

Processing | Maintenance Cleaning:

1. Apply in concentrated form with wet sponge and allow to act for a short period.
2. Wipe off with clear water.
3. Clean working equipment.

Consumption: approx. 20ml / sqm

Range: approx. 50 sqm

Important references:

- ▶ Stable in original container with storage under uniform conditions for an unlimited period.
- ▶ It is important to protect against frost or strongly fluctuating temperatures. Tightly close off containers already opened.
- ▶ Optimal processing at low air humidity (approx. 65%) and normal room temperatures (18 - 30 degrees centigrade).
- ▶ Regular maintenance-cleaning with RZ 330 Sanitary Cleaner improves the optics and prolongs the service life duration of the floor covering.
- ▶ Process contamination not removed with diluted Codex RZ 120 cement veil remover.

Work and environment protection :

Non-flammable, no irritant effects and not environmentally dangerous. It is possible that the contained and designated components of the perfumes, as well as the preservatives, can cause sensitizing or allergies with certain groups of persons. During processing, the utilization of skin protection cream, as well as the ventilation of the working areas, is basically recommended.

Waste disposal :

Do not allow to enter undiluted into the sewage system, into water bodies or into the soil. Rinse out residue-emptied containers with a little water and dispose of as recycling-capable containers, in accordance with the local / official directives (DSD).

The specifications are based on our experience and careful investigations. The quality of your work depends on professional construction site evaluation and product use by yourself. If in doubt, conduct a small sample test or obtain technical advice. The directions for use on the containers are to be strictly adhered to.
